About me

Entering in the programming world really change my life perspective and made me a better person in different ways like learning faster or efficient and also working in a team. I am looking to improve my potential and keep learning.

Proyects

Full Stack - Planet Dog - Nov 21

Development of a SPA with a "Dogs" theme, based on **React** and **Redux** technologies for the Front-End, the styles were made with pure **CSS**. The SPA consumes the data from the API across the Backend made with **NodeJS** and **Express** with a relational Database created with **PostgreSQL** and **Sequelize**.

Estates Proyect - March 22

Real estate sale and rental project based on **PostgreSQL**, **React** and **Redux** for state management. **Node** and **Express** for the Back-end. **AWS** was also used for the backend images and **Auth0** for the page login also the use of **Tailwind** for styles.
